CAREER OBJECTIVE

Full Stack Developer specializing in Next.js, TypeScript, Node.js, and PostgreSQL, with a completed Backend AI Engineering internship. Built and tested a Dockerized, idempotent LLM usage metering and billing backend integrated with Stripe webhooks. Seeking a remote junior or contract role to contribute to reliable, scalable applications. Based in UTC+6 and available full-time.

EXPERIENCE

Backend AI Engineering Intern · FlyRank AI · Jul 2026 - Oct 2026 Certificate · Recommendation Letter

- Completed 35 practical assignments and 221+ verified hours covering API contracts, prompting, retrieval, and evaluation, plus 20 verified Anthropic Academy courses.
- Built backend capstones with Node.js, Express, PostgreSQL, Docker, and Stripe webhooks, each shipped with automated tests.
- Delivered three capstones accepted by the lead track mentor: Social Media Studio, Usage Metering and Billing Engine, and an Embeddable Widget and Lead-Capture Platform.

TECHNICAL SKILLS

Frontend:	React.js · Next.js · JavaScript (ES6+) · TypeScript · Tailwind CSS · Framer Motion · HTML5 · CSS3 · Redux Toolkit
Backend:	Node.js · Express.js · REST API · JWT Authentication · BetterAuth · Socket.io · Stripe · Webhooks · Gemini API
Database:	MongoDB · PostgreSQL · SQLite · Redis · Prisma
Tools:	Git · GitHub · Docker · Postman · Vercel · Netlify
Soft Skills:	Problem Solving · Adaptability · Attention to Detail · Team Collaboration

PROJECTS

Usage Metering and Billing Engine - LLM Usage Billing Backend GitHub

- Built an idempotent LLM usage metering API with per-tenant quotas and 429 with Retry-After, where 8 parallel requests with the same key produce exactly one usage event.
- Integrated Stripe Checkout and signed webhooks with event deduplication to sync Free and Pro plans, and priced usage in integer micro-dollars to avoid rounding errors.
- Added a background alert job with retries at 80 and 100 percent usage, containerized with Docker Compose and PostgreSQL, and validated with 5 evaluator probes.

Tech Stack: Node.js · Express.js · PostgreSQL · Docker · Stripe · Zod

Healync - Doctor Appointment Platform Live Demo · Client · Server

- Built a specialist search and booking flow, tested with 15-20 demo users.
- Developed a real-time dashboard enabling patients to view, reschedule, or cancel bookings instantly across devices.
- Designed the Medical Companion feature, letting patients request in-hospital assistance during visits or tests.
- Automated email reminders and daily health tips via Nodemailer to improve appointment adherence.

Tech Stack: Next.js · TypeScript · Node.js · Express.js · MongoDB · Better Auth · Nodemailer

Brawnix - Elite Fitness Platform Live Demo · Client · Server

- Built a class browsing and booking flow tested with 20-50 users, integrating a complete Stripe payment workflow (demo mode) and a favorites system for quick rebooking.
- Enabled trainers to independently manage class sessions for the platform's 20-50 test users, track enrollment, and publish community articles.
- Built an admin dashboard to approve classes and trainers, manage accounts, and visualize platform growth.

Tech Stack: Next.js · React · Node.js · Express.js · MongoDB · Better Auth · Stripe · Tailwind CSS

EDUCATION

Higher Secondary Certificate (HSC) · Science · Nizampur Government College 2025

CERTIFICATION & COURSES

Backend AI Engineering Certificate, FlyRank AI · ID FR-D11-0A5C0-2D943 · View Certificate 2026

Complete Web Development Course · Programming Hero (Online) · View Certificate 2026
