

TAWCHIFUL ISLAM

Full Stack Developer

tawchif04@gmail.com · +8801616241205 · Chittagong, Bangladesh · [GitHub](#) · [LinkedIn](#) · [Portfolio](#)

CAREER OBJECTIVE

Full Stack Developer with practical experience building and deploying end-to-end web applications across the modern JavaScript ecosystem - React.js, Next.js, Node.js, and MongoDB. Seeking an international, product-based role where I can deliver scalable solutions and grow alongside a high-performing, globally distributed team.

TECHNICAL SKILLS

Frontend: React.js · Next.js · JavaScript (ES6+) · Tailwind CSS · Framer Motion · HTML5 · CSS3

Backend: Node.js · Express.js · MongoDB · REST API · JWT Authentication · BetterAuth

Tools: Git · GitHub · VS Code · Postman · Vercel · Netlify · MongoDB Atlas

Soft Skills: Problem Solving · Adaptability · Attention to Detail

PROJECTS

Healync - Doctor Appointment Platform

[Live Demo](#) · [Client](#) · [Server](#)

A full-stack doctor appointment platform designed for patients, elderly individuals, and health-conscious users who need fast, digital access to specialist care - without the friction of traditional hospital visits.

Key Features:

- Users can book appointments with specialists and manage all bookings - including editing and cancellation - from a personal dashboard.
- Doctor search with advanced filters by specialty and availability makes it easy to find the right doctor without unnecessary steps.
- A UI-driven Medical Companion feature and a daily health tips section help users stay supported before, during, and after hospital visits.

Tech Stack: Next.js · JavaScript · Node.js · Express.js · MongoDB · Mongoose · BetterAuth · Vercel

Bookworm - Full Stack Digital Library

[Live Demo](#) · [Client](#)

A full-stack digital library built for students, busy professionals, and book enthusiasts who want a fast, categorized, and accessible reading experience - without stepping into a physical library.

Key Features:

- Users can browse books by genre and filter for short reads under 200 pages - making it easy to find something worth finishing.
- A trending section highlights viral and popular books so readers can instantly discover what others are reading right now.
- A daily short story keeps readers engaged and helps build a consistent reading habit over time.

Tech Stack: Next.js · React · MongoDB · BetterAuth · Tailwind CSS · DaisyUI

Keen Keeper - Relationship Manager App

[Live Demo](#) · [Client](#)

A relationship management app for remote workers and socially conscious individuals who want to stay intentionally connected - turning everyday communication into measurable, visual insights.

Key Features:

- All interactions - calls, texts, and video - are logged against each contact in a timeline so nothing slips through the cracks.
- Interactions can be filtered by type, making it easy to see the last time a user called, texted, or video-chatted with someone.
- A stats dashboard shows interaction frequency per person through visual charts, helping users see where they are investing their time.

Tech Stack: React.js · Vite · React Router DOM · Recharts · Tailwind CSS · DaisyUI · Netlify
